

hp digital sender
9100c

**the new way
paper is sent**

Conveniently e-mail your hardcopy documents.

Information is the lifeblood of any enterprise. So anything that enables employees to exchange and manage information more efficiently can provide a key competitive advantage.

HP Digital Senders do just that. By turning paper into e-mail, they make it possible to transmit paper documents in near-original quality anywhere in the world with the touch of a button.

In addition, the HP Digital Sender 9100C enables seamless integration of paper documents into a wide range of messaging and knowledge management systems. And when used with a network fax system or Internet fax service, it eliminates the need for standalone fax machines.

Best of all, HP Digital Senders feature the quality and reliability you expect from HP.

Send paper documents quickly, easily and in near-original quality via e-mail.

Less Expensive to Use

- Reduce overnight mail, courier and long-distance fax charges
- Eliminate the need for many of your standalone fax machines
- Turn your network printers into copiers

Fast

- Send information at the speed of e-mail—days faster than courier service
- Eliminate the need to fill out fax and courier delivery forms
- Deliver color or black and white paper documents to mobile workers, remote offices and customers all over the world within minutes
- Send to multiple recipients simultaneously—with the push of a button

Easy

- Intuitive front panel keyboard requires minimal training
- Private and company address books can be imported and accessed directly at the device
- Installation is quick and easy—to connect to your network infrastructure, just plug it in

Better Quality

- Text, graphics or photos can be sent in black and white or full color
- HP Smart Compression technology minimizes file size while optimizing quality
- Near-original quality means no time is wasted trying to decipher or resend faxes
- Confidentiality is assured with delivery direct to the recipient's desktop
- Recipient can store, print or forward the file with no deterioration of quality

HP Digital Sender 9100C—seamless integration and versatility

- Color and black and white documents are sent by e-mail with the push of a button as PDF or TIFF files
- Add e-mail message text using the control panel
- Works with all standard e-mail applications
- Remote configuration via a web access tool
- HP Smart Compression technology optimizes quality while reducing file size
- Seamless integration with many third-party applications
- When used with a network fax system, eliminates the need for standalone fax machines
- Turns HP JetSend-enabled HP Color LaserJet printers into color copiers
- Customizable user interface is easy to use and requires virtually no training
- Security via Windows NT authentication
